

RACE TIMING SOLUTIONS

Marathon Bib, Shoe Tags, Ankle Bands and Bicycle Tags

syndicate

R F I D

We offer Race Timing Solutions to satisfy the demands of endurance events of all types and sizes. Our Marathon Bib, Shoe Tags, Ankle Bands and Bicycle Tags are designed for running, marathons, Cross- country, triathlon, cycling, mud runs, swimming, Nordic sports, kayaking, institutional and corporate sporting events.

Our disposable timing tags enhance the quality of race for every participant by providing accurate race timing data and enhancing the user experience. Gone are the days of struggling to stand in a long queue after an exhausting race to write down or to have noted your bib information on an index card. Also eliminate the hassle of chip distribution and collection before and after events. The race timing tags are recyclable and are helping races become more eco-friendly.

MARATHON BIB

Syndicate Marathon Race Bib can be instantly printed using most Laser Printers. The Bib material used is resistant to water and sweat; it will not tear off during rough and tough conditions. Variable data printing allows different number printed on each Race Bib. The bibs feature a punched out hole on each corner so that it can be affixed by a safety pin to the runners' jersey.

Syndicate Marathon Bib supports a unique feature of dual frequency technology which allows longer ranges to be achieved than single frequency technologies. The use of bipolar antenna allows high tag read rate.

KEY FEATURES

- Assign unique identification number to each participant
- Simple for athletes to affix bib on jersey
- No post-race collection required
- Extended tag operating range due to bipolar antenna
- Quick & high tag read rate
- Water-proof & sweat resistant
- Recyclable and durable material

The Syndicate RFID Bib Shoe Tag is a perfect option for any size event looking for a simple and cost effective solution for providing their participants race timing solution. This tag solves the dual purpose as traditional tracking chest number to the athlete along with accurate timing recordings.

The Shoe tag is a thin paper strip that is attached to the main Bib with perfect perforation slits and four holes on corners for lace-up. This allows hassle free applying of a tag to the shoe and reduces the chances of error in the application process. The shoe tag features an additional sheet attached above the bib with a neat preformation mark for brand promotion and instructions to use.

KEY FEATURES

- Simple for athletes to use
- No post-race collection
- Simple for race directors and event staff to distribute at packet pickup
- Eliminates fees for lost tags or unreturned tags
- Eliminates chip file by matching tag numbers to bib numbers
- Allows volunteers to be used in other facets of event rather than collecting chips
- Reduces potential for human error
- Water-proof & sweat resistant
- Recyclable and durable material
- Customizable for marketing opportunities

Standards	EPC Global Class1 Gen2 ISO 18000-6C

BICYCLE TAG

The Syndicate Bicycle Tag is the UHF RFID timing tag which attaches to the seat post/ saddle of the bike. This tag is as thin as a sheet of paper. It creates no additional drag for cyclists and is easily readable from the side.

The ease for participants to apply the tag to the bike is second to none. In just three easy steps your bike tag is on the bicycle. Just peel, align and stick!

Bike tags are used for various styles and speeds of cycling including cross country races, charity rides and mountain biking events.

KEY FEATURES

- Easy to apply to the bike
- No additional drag added to the bike
- Eliminates straps or anklets sticking in the crank
- No-post race chip collection
- Eliminates fees for lost tags or unreturned tags
- Can be customized to include your race or sponsor logo
- Easy to remove with no post-race residue
- Made up of Recyclable material

APPLICATION AREAS

- Cycling race
- Cross-country
- Charity rides
- Mountain biking
