RFID WRISTBANDS

Access Control Crowd Control, Cashless Applications

RFID Wristbands bring a host of benefits not available with other technologies.

BENEFITS OF RFID WRISTBANDS

- Eliminate fraudulent use of counterfeit tickets
- Faster and more convenient access control
- E-wallet: enables fast and secure transactions
- Enables real-time tracking of participants
- Easy secure identification

APPLICATIONS

- **Access control** to events (music festivals, sporting events), amusement facilities, conferences, etc.
- **Access** to hotel rooms, lockers at swimming pools, spa's, etc.
- **Crowd management:** RFID wristbands enable realtime tracking of people in different zones, allowing better crowd management and safety and security of participants
- **E-wallet** on RFID wristbands enables cashless spending by guest on food, merchandise and facilities
- **Patient ID:** With RFID wristbands, Patients can be tracked through out the facility and correctly identified before any medication or medical procedure is carried out.
- **Ticketing:** High value non-transferable ticketing
- **Photo-management** system at venues by linking guest photos to their RFID wristbands
